

2nd Grade at Zootah

Name: _____

What does a living thing need to survive?

1.

2.

3.

4.

5.

(Air, water, shelter, food, space)

Circle the items that are living!

Grass

Trees

Phone

Flowers

Rocks

Banana

Monkey

Fox

Birds

Human

Paper

Umbrella

Pencil

Clothes

Bike

Computer

Each animal has a specific habitat that they can survive in.

Example:

Turtles	Ponds, Lakes, Rivers
Birds	Trees

Choose three of your favorite animals today you saw at the zoo, and describe what you saw in their habitats that they needed to survive.

Animal at Zoo	Found in Habitat
EXAMPLE: Owl	EXAMPLE: -nesting box: provides shelter -branches: provides space to explore - Water dish: gives the owl water - air: gives the owl oxygen to breath and live

What were some similar things the animals had in their habitats?

What were some different things the animals had in their habitats?

Why would one animal need something another animal does not need?
